BARBARIC ATTACK FROM THE INDIANS

Turk Robbed In Last Revolution Said to Be Leading Indian Rebels.

Mexico City, Mexico, May 27.—Dispatches from Merida indicate that the disorders in Yucatan are growing. The attack of the Indians on Tekantec is said to have been barbaric in character, several persons having been killed and their bodies burned. The town was sacked and the railway station and several other buildings burned. After leaving Tekantec the band went to Tera, where the municipal president was killed and the business houses sacked.

A Turk who lost all of his possessions in the last revolution is said to be leading the Indians who are armed with modern rifles. Telegrams from Torreon say that there are now no rebels in that immediate vicinity; that the federalists are in full control.

Expatriates Routed.
A force of Zapatistas said to number 2,000 was defeated Friday near Cuastitlan, Morelos, where they had been in control for some time. Right dead were reported on the rebel side and six on the federal after several hours fighting. The rebels retreated in the direction of Amatlan. Unimportant disturbances are reported from Toluca and Zacapantan, Puebla and Tekantec.

Indians Up in Arms.
A band of 250 Indians in the state of Oaxaca arose in arms yesterday and attacked Villa Juarez, in the northern part of the state and killed the municipal president, the judge and four other government officials. They are said to be on the road to the capital of the state and much alarm is felt.

CLEMENTS COMES UP FROM FRONT

Say Federalists as Badly Demoralized as Rebels in Late Fighting.

George H. Clements, correspondent of the Associated Press at the Mexican rebel front, came in last night for a brief visit with his family. Mr. Clements says that the rebels lost but 60 men in the battle of Rellano and that it was the cannon fire of the federalists that caused the rebels to retreat. The rebels drove back the federal infantry every time they charged, he declares, and could have held the field easily against Huerta had it not been for the federal artillery.

Mr. Clements says at the battle of Obichela, when Orozco made his first retreat, the federalists were as badly demoralized as the rebels when the rebels fell back; he says Gen. Albuert's federal column was retreating in great disorder when the rebels fell back.

Mr. Clements confirms the killing of Cola, Canales and Amaya, of the rebel army, in the vicinity of Torreon. Amaya was shot through the head while drinking from a canteen and the same bullet killed a soldier standing behind the colonel.

During the fighting at Rellano, Mr. Clements says, water was so short that orders were issued against washing hands or face, and water was only used for drinking purposes.

SPECIAL GUARDS HIRED TO PROTECT MINING MEN IN SONORA.
Tucson, Ariz., May 27.—Mining companies in Sonora have raised an armed force of a hundred men to protect freights on the roads between Hermosillo and the outlying mines. Many freights have been killed in the last few weeks by Yaquis and the men drew off from the roads, refusing to haul ore unless given protection.

AMERICANS SUFFER FROM THE MEXICANS

Depredations on Isthmus of Tehuantepec Against Foreigners.

Mazatlan, Sinaloa, Mexico, May 27.—Among the refugees on board the United States transport Buford, when it arrived here, were members of a religious colony of 40 from the Isthmus of Tehuantepec, who reached the transport after a hard trip. There had been much fighting along the line of the Tehuantepec railroad, tracks had been torn up, bridges destroyed and transportation generally interfered with, they said.

The last 20 miles of the journey was made afoot. Officers of the Buford held the vessel two days to await their arrival.

The refugees report that a great many bands are operating through the interior, while the coast towns are free from interference. It is said that many pineapple and banana plantations owned by Americans have been ruined.

Among the refugees are Mr. and Mrs. Thomas, 52 and 47 years of age, respectively, who two years ago came from Des Moines and started the cultivation of a banana and pineapple plantation, which was destroyed by brigands.

No violence to Americans was reported, but anti-American feeling is said to exist at Santa Cruz, and no one was permitted to go ashore.

To Land Refugees at San Pedro.
San Diego, Cal., May 27.—American refugees gathered along the west Mexican coast by the transport Buford, had been put ashore at San Diego and San Pedro to be cared for by city authorities, according to information received here.

Mayor James E. Wadham received a telegram to that effect from superintendent Grant of the army transport service. The Buford, according to the message, sailed from Mazatlan, Mexico, last Saturday. It was said to have had 185 refugees aboard when it reached Mazatlan.

FIFTY REBELS ARE REPORTED KILLED

Report From San Pedro Says Rebels Are Perishing of Thirst.

Monterey, Mexico, May 27.—After a hot fight at Picardina between federal troops and rebels, Lieut. Col. Teodoro Jimenez Riveroll, of the 25th battalion of infantry, reported to military headquarters here that he had routed the rebels, killing 50 of them and losing five of his own men. The rebels retreated when they saw that the federalists were getting the best of them and left horses and arms behind.

The rebels numbered not less than 500, according to the dispatch, and were captured by Alberto Guajardo, a well known revolutionist.

A private dispatch to La Prensa of this city, from Torreon, states that at Avila, 15 kilometers from that city, there had been a battle between the federal troops and Campes's rebels. The rebels are said to be some of the same which were routed out of Lomas.

Which control the third military zone, comprising the states of Nuevo Leon, Tamaulipas and Coahuila, received a telegram from Torreon, which stated that Col. Rafael Garcia Martinez had captured the rebel leader, Apolinario Trevino. No details of the capture were given in the dispatch.

Parties arriving here from San Pedro de las Colonias, in the state of Coahuila, report that hundreds of rebels are in that section, dispersed, unarmed and starving to death. They relate instances where small bands of rebels had hidden along a road where the federalists were to pass and begged for water, saying that all they wanted was a drink and would not mind being shot down if they only had water. It is said these men were given water by the federal soldiers and placed under arrest. They are receiving good treatment as prisoners of war.

Other stories are to the effect that some of the starving and thirsty rebels, arriving at small towns, would drink bottles of vinegar, which they procured from small stores, there not being water enough to go around. Others drank the lime water waste from the nixtamal from which tortillas are made, a liquid which is practically lye.

The San Pedro people report that the crops in that section are in excellent shape. Reports in the Mexican press had said that there would be nothing harvested in that section this year, but the people from that section who have arrived in Monterey say the reports were false.

REPORT OF JAIL DELIVERY

A report was received over the North Western telegraph line Saturday from Mazatlan that there had been a general jail delivery at the Chihuahua penitentiary at the time Rojas was liberated.

The jail delivery, the message said, had been planned by friends of Rojas and instead of his being liberated by the rebel officials, his friends succeeded in delivering the jail of all of its occupants.

CANNON BROUGHT UP TO C. JUAREZ

Machine Gun Also Brought. Federal Prisoners Are Brought In.

A cannon and a machine gun were added to the garrison at Ciudad Juarez Sunday for the defense of the city. The artillery was brought from Chihuahua by Capt. Ignacio Orozco and 36 rebel soldiers.

The cannon is of the rebel's own manufacture and was made in the shops at Chihuahua where several other pieces of artillery have been constructed by the rebel mechanics. The machine gun is of American manufacture.

The troops which have been campaigning in the Guadalupe district east of Juarez, against the band of Maderistas under Luis Sanchez, returned to Juarez Sunday morning after a six day campaign. With them they brought 10 prisoners captured from the forces of Maj. Luis Sanchez, which the prisoners are being held in the cuartel. Besides the prisoners they also returned with about 30 saddle horses and the arms and ammunition which belonged to the prisoners.

The prisoners were taken in the skirmish at El Perolito on Friday. In the fight the Maderistas lost two men dead and the majority of the federal force was captured by the rebels.

JUAREZ TROOPS GO TO RECRUIT REBELS

Five Hour Battle West of Chihuahua Results in Rebel Victory.

A rebel force consisting of about 125 men, was sent from the Juarez garrison over the Mexico North Western railroad Sunday to the Guerrero district to campaign against the Maderista troops in that section under the command of Col. Cervantes. The troops were dispatched from Juarez on a special train and traveled in refrigerator cars.

Sunday an encounter between the Maderistas and the rebels from the Chihuahua garrison occurred at Temascalco on the Chihuahua division of the Mexico North Western, according to a telegram received by Col. Pascual Orozco, military commander of Juarez. The message said that the battle lasted for five hours, and finally ended with the rebel troops having the advantage.

PASSPORTS NEEDED IN BUYING TICKETS

Col. Orozco Issues Order to Mexico North Western Road.

Col. Pascual Orozco, commander of the Juarez rebel garrison, has issued orders to the passenger department of the Mexico North Western railroad not to sell tickets to any passengers for points on that line unless a passport is presented at the time the ticket is purchased. These passports are obtainable at the telegraph in Juarez, the order says, and will be issued upon application to Col. Orozco.

It is believed that this new rule has been made to prevent any federal sympathizers and employees of the federal government from going to the interior over the North Western for the purpose of organizing tracks and bridges or spying.

PREDICTS SPEEDY CAPTURE CHIHUAHUA

Monterey, Mexico, May 27.—Gen. Geronimo Trevino, chief of the third military zone, with headquarters in this city, believes that the death blow has been dealt the Orozco revolution. In a statement Gen. Trevino, one of the oldest and most able soldiers Mexico has ever produced, said that he believed that within eight days Huerta and his men would take possession of the city of Chihuahua. In part the general said: "I believe that the battle in Rellano has been a definite blow to the revolution. It had based its hopes in the person of Pascual Orozco and his army and both of these have just been completely defeated in Rellano by Gen. Huerta's column. For Orozco it will be very difficult, if not completely impossible, to reorganize his people, on account of lack of interest and their being demoralized."

Furthermore, Orozco had an enemy in the rear guard of his army which was marching toward Juarez. Gen. Sanchez, who was in Chihuahua with a good many soldiers.

"As for Huerta's column, I believe that in eight days more he will have reached the capital of Chihuahua, with which act the revolution in that state will have reached its end. There will probably remain a guerrilla warfare for some time, which will soon be put down by the volunteer corps."

REBELS THINK CONGRESS WILL ASK MADERO'S RESIGNATION.
That Madero is to resign the presidency of Mexico is the belief of the rebels, according to advices received from Chihuahua by Col. Pascual Orozco, military commander of Juarez. This information has been given to the rebels by a man whose identity they refuse to divulge but who they say arrived from Mexico City a few days ago.

Col. Orozco's telegram said that the Mexican congress had decided some time ago to ask for the resignation of Madero and that this was to be done by the first of June.

A Mexico City message says: "The reported intention of Madero to resign is headed by members of the president's family as too ridiculous to merit serious denial. Gustavo Madero, the president's brother, said that no such thing was even thought of. If my brother contemplated resigning, which he does not," he said, "he certainly would not do so under present conditions."

Ernesto Madero, minister of finance and uncle of the president, made a similar denial. "The report is entirely untrue," said Ernesto Madero, minister of finance.

THOUSAND TROOPS TO BE SENT TO SINALOA.

Force Under Command of General Jose Delgado To Try To Restore Peace.

Mexico City, Mex., May 27.—Gen. Jose Delgado will leave early this week for the state of Sinaloa in command of 1,000 men who will be used in restoring peace there. His departure has been delayed by the fact that he is awaiting the arrival of artillery from San Gerónimo, Oaxaca, consisting of three sections of light artillery, two of mountain artillery, two of field artillery and two sections of rapid-firers.

The withdrawal of this artillery from San Gerónimo will leave only two sections of light artillery in that town. Some troops from this city will form part of the command of Gen. Delgado who will pick up reinforcements on his way to Mazatlan, until the entire state forces reaches a total of 1,900 men.

GOEN AND BAIN TO ATTEND STATE CONVENTION

U. S. Goen and O. H. Bain will attend the state Republican convention at Fort Worth, which will select the delegates at large for the Chicago convention. The meeting will be on May 28. U. S. Goen will be the delegate to the Chicago convention from El Paso, as he has been selected as the delegate from this congressional district.

EXPORTS AND IMPORTS ARE ON THE INCREASE

Washington, D. C., May 27.—The monthly statement of the department of commerce and labor shows the total value of exports for April to have been \$114,000,000, as against \$114,900,000 for the same month last year. The imports were valued at \$162,000,000 as compared with \$155,000,000 for April, 1911.

For the 10 months ending April 26, the total value of exports was \$1,150,000,000, against \$1,144,000,000 in 1911. The imports for the 10 months increased from \$1,374,000,000 to \$1,446,000,000.

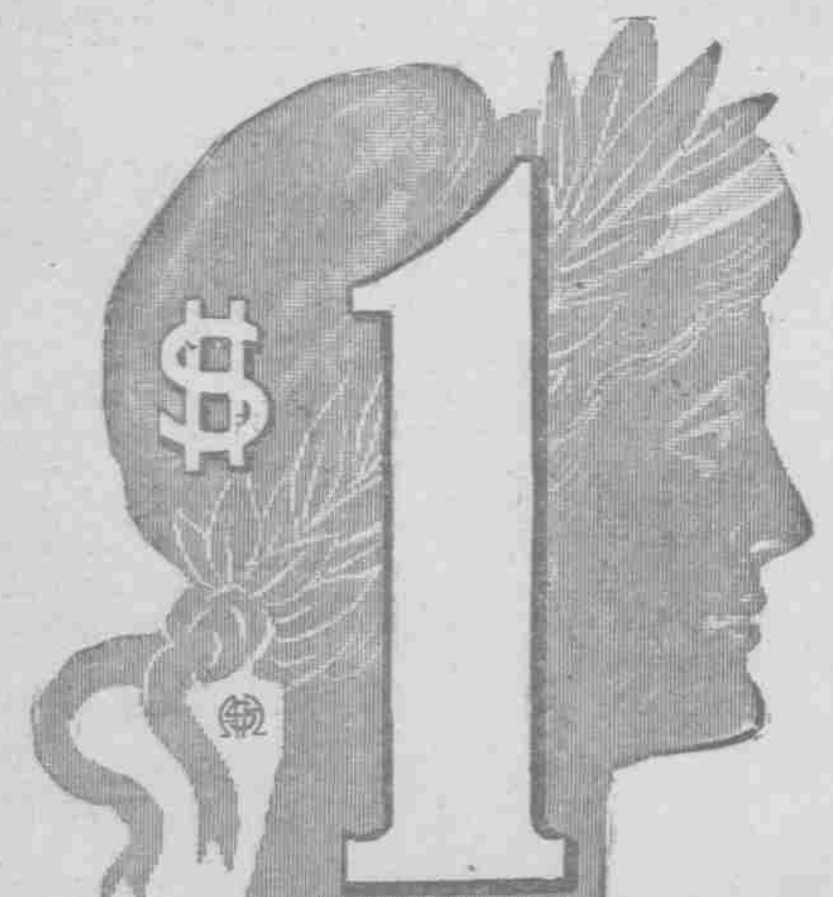

BOTH PHYSICIANS MADE SAME MISTAKE

Place—Hospital in Pueblo, Colo. Case—Chronic Bright's Disease of fifteen years' development. Prognosis—Recovery impossible and patient in a month remain or go home. On arrival at Center, Colo. could not sit up alone in bed. A local physician was called. He, too, said he could not recover and prescribed for his heart. It did not look like the patient could live a week when a new agent was added to the treatment.

In ten days patient was sitting up; in twenty could walk outdoors. He made a slow but steady recovery. He now weighs 130 lbs. These facts were given us by his wife, Mrs. Mary Galey of Center, Colo., who will confirm them. Both physicians were mistaken as to the possibilities, and the same mistake is occurring everywhere—even in the hospitals of this city. And these mistakes are costing human lives.

The new agent employed as above was FULTON'S RENAL COMPOUND. It does not conflict with the physicians' prescriptions. But it does change the prognosis from deadly to hope.

Over nine out of ten of the dead from kidney trouble show Bright's Disease. This is a common fact that kidney-troubled people ought to know. Kelly & Pollard, wholesale and retail druggists, for literature write John J. Fulton Co., 645 Battery St., San Francisco.

Dollar Day Tomorrow

Do not overlook the unusual dollar values that will be presented in the Herald tomorrow
